

Accident Reconstruction Professional

For 64-bit Windows 11, 10, and 8/8.1

ULTRA HIGH QUALITY AR FORMULA PROGRAM!

The screenshot displays the Accident Reconstruction Professional (AR Pro) software interface. The main window is titled "AR PRO Accident Reconstruction Professional - [A Sample Recon Case]". It features a top toolbar with various icons for navigation and calculation. The interface is divided into several panels:

- Inputs:** EDR Long ΔV: 45.00 mph/kph, EDR Lat ΔV: 15.00 mph/kph. A button "See Formula NOTES tab!" is present.
- Formula(s):** A search bar and a dropdown menu showing "Windows11 Modern Light".
- Results:** PDOF Angle (°): 18.26, Resultant ΔV: 47.43.
- INCREMENTS:** Increment: Longitudinal ΔV (selected), Lateral ΔV (unselected). Current: 45.00, Increment By: 1, # Steps: 10, Start Point: 40.
- NOTE:** With Monte Carlo.
- CASE NO:** A Sample Recon Case.
- REPORT FOOTER:** pdof.

The Monte Carlo Analysis results are displayed in a table:

Calc #	Long ΔV	Lat ΔV	PDOF	Res ΔV
19996	43.73	14.06	17.74	45.93
19997	47.56	14.94	17.22	49.85
19998	46.01	15.30	18.26	48.48
19999	43.65	15.56	19.29	46.34
20000	43.43	13.37	16.69	45.44

The bottom status bar shows "Calculate the Monte Carlo Analysis" and "Num: On Tuesday, 11/14/2023 12:49".

Dirigo Software is happy to showcase our ultra high quality **AR Pro** program, and are thrilled that the program **now contains a Monte Carlo Analysis built into the vast majority of formulas.**

AR Pro is built in *Windows 11* for *Windows 11*, but is also 100% compatible with *Windows 10* and *8/8.1*. **AR Pro** is now available with a yearly subscription for only **\$229** a year (which is *much less* than a Premium Netflix subscription, and volume discounts are available), and ALL updates and upgrades are included while subscribed! Subscribers will ALWAYS have the very latest and current version of **AR Pro** — and *no more upgrade fees!!*

AR Pro has an outstanding selection of formulas, two vehicle specs databases, an awesome time log, calculator, calendar, links to a unit conversion site, a sisters and clones database site, as well as the NHTSA Recall database site, and menu selections to start your favorite word processing and CAD programs.
